“The Moorefield OEUF Smart Toilet is designed to enhance any modern bathroom experience, resulting in an unmatched combination of the best features of any conventional high-quality ceramic toilet with the innovations of a modern advanced smart toilet. Features normally found in luxury hotels such as heated seating, warm flowing water, air drying, and more, all controlled via the included wireless remote will change your bathroom experience forever. Ecologically and sanitarly advanced, the OEUF Smart Toilet eliminates almost all need for toilet paper or wet wipes, all while cleaning up after itself with automatic flushing and deodorizing modes, while an antimicrobial seat coating ensures cleanliness for bacteria normally unseen. All MOOREFIELD smart toilets arrive complete with installation hardware, wireless remote controls, illustrated manuals and setup guides.”
